

Be part of our interconnection story.

DE-CIX (German Commercial Internet Exchange) is the world's leading Internet Exchange operator and since its inception it has had a decisive influence on shaping the guiding principles of the present and future Internet in various leading global bodies. At our locations in Europe, Africa, North America, the Middle East, and Asia, we work at the heart of the Internet. For almost 30 years, our interconnection services have contributed to the creation of new digital ecosystems worldwide and have prepared people, businesses, and organizations for the coming decades of digital evolution. The DE-CIX Internet Exchange in Frankfurt (Germany) is one of the largest in the world. For more information, please visit www.de-cix.net. We are now looking for a committed person for **Frankfurt**

(Junior) Product Manager - Cloud & SASE Connectivity (w/m/d)

Our Offer

As part of our dynamic Product Development team, you will have the opportunity to be at the forefront for designing novel solutions in networking and cloud security with emphasis on network abstraction and automation. We are looking for a dedicated individual to work on our products from the idea generation to the prototype phase and preparing GTM. Your tasks:

- Active co-creation of product ideas in the area of network and cloud.
- Technical design and configuration of prototypes and first product versions.
- Close collaboration with the entire intrapreneur team and developers.
- Flexibility and adaptability to frequent changes; ability to experiment and continuously re-evaluate product ideas.
- What to expect:
 - an appreciative corporate culture and trustful teamwork with like-minded specialists, as well as great working conditions (extensive personnel development measures, an occupational pension scheme, weekly language courses, a job ticket, health promotion, support on children care, eldercare, hybrid working model and many more)
 - exciting and diverse challenges in an innovative and international environment, within the framework of a crisis-resistant permanent contract with the world's market leader in its sector
 - last but not least extremely friendly and supportive colleagues

This is important to us

- Degree in business, computer science, or a comparable field, with professional experience in a similar role or at an SDWAN/SASE solution provider.
- Technical understanding and experience in cloud, networking, and/or security; networking skills (e.g., network protocols) are a plus.

- Strong willingness to learn, motivation to shape innovative products, and well-developed communication skills to engage with internal and external stakeholders.
- Ability to navigate uncertainty and adapt to a constantly changing environment with confidence.
