DE-CIX (German Commercial Internet Exchange) is the world's leading Internet Exchange operator and since its inception it has had a decisive influence on shaping the guiding principles of the present and future Internet in various leading global bodies. At our locations in Europe, Africa, North America, the Middle East, and Asia, we work at the heart of the Internet. For almost 30 years, our interconnection services have contributed to the creation of new digital ecosystems worldwide and have prepared people, businesses, and organizations for the coming decades of digital evolution. The DE-CIX Internet Exchange in Frankfurt (Germany) is one of the largest in the world. For more information, please visit www.de-cix.net.

For our location in **Frankfurt** we are looking for a motivated

# Working Student Software (f/m/d)

## Our Offer

- Up to 20 hours a week of practical work instead of pure theory:
  - You are directly involved in developing and maintaining applications to manage DE-CIX infrastructure globally
  - The opportunity to work with expert software engineers and network architects to gain insight and knowledge into professional software development and how the Internet works at its core
- A versatile and safe student job, with varied tasks in an innovative environment, awaits you
- Promising professional contacts within the world market leader in its branch
- an appreciative corporate culture and trustful teamwork with like-minded colleagues

## This is important to us

- Ongoing studies in Informatics/Computer Science or a related field
- Experience using languages such as PHP or Python and good knowledge of Docker, Apache Kafka, dependency injection or ORMs
- Practical knowledge in modeling of APIs (REST)
- Ability to implement solutions to complex problems as well as analytical thinking and strong communications skills in English and ideally also German
